
Redesign Sprint

UI Redesign for SaaS Platforms and Mobile Apps

Studio [design316](#)
Email vicente.l@design316.com
Website www.design316.com

This document details the process we use to execute Micro Design Sprint™.

Redesign Sprint

It's not just another redesign. Redesign Sprint is a User Interface overhaul program. Select a page of your SaaS/Web/Mobile App that needs a change and we'll do it in under a week. We don't use brutal force, instead we will find the right combination of subtle changes that you can use as the basis for improving other pages in your app. You get a feel for working with us and see our results, which will help you evaluate whether or not to continue working with us!

**Subtle UI Improvement
with big impact**

**Changes that you can use as
basis to improve other pages**

Get a feel of working with us

Process

Pre-Sprint

Payment

We will commence the project a day after full payment for the Redesign Sprint.

Phase 1

Requirements

Send us your selected page in form of screenshot (PNG). Give us up to 3 references of your target look and feel.

Phase 2

UI Design

Get an updated design in 3-5 Days. You have 2 Rounds of Client Review.

Phase 3

Delivery

You will receive the final UI design in Figma.

Phase 1

Requirements

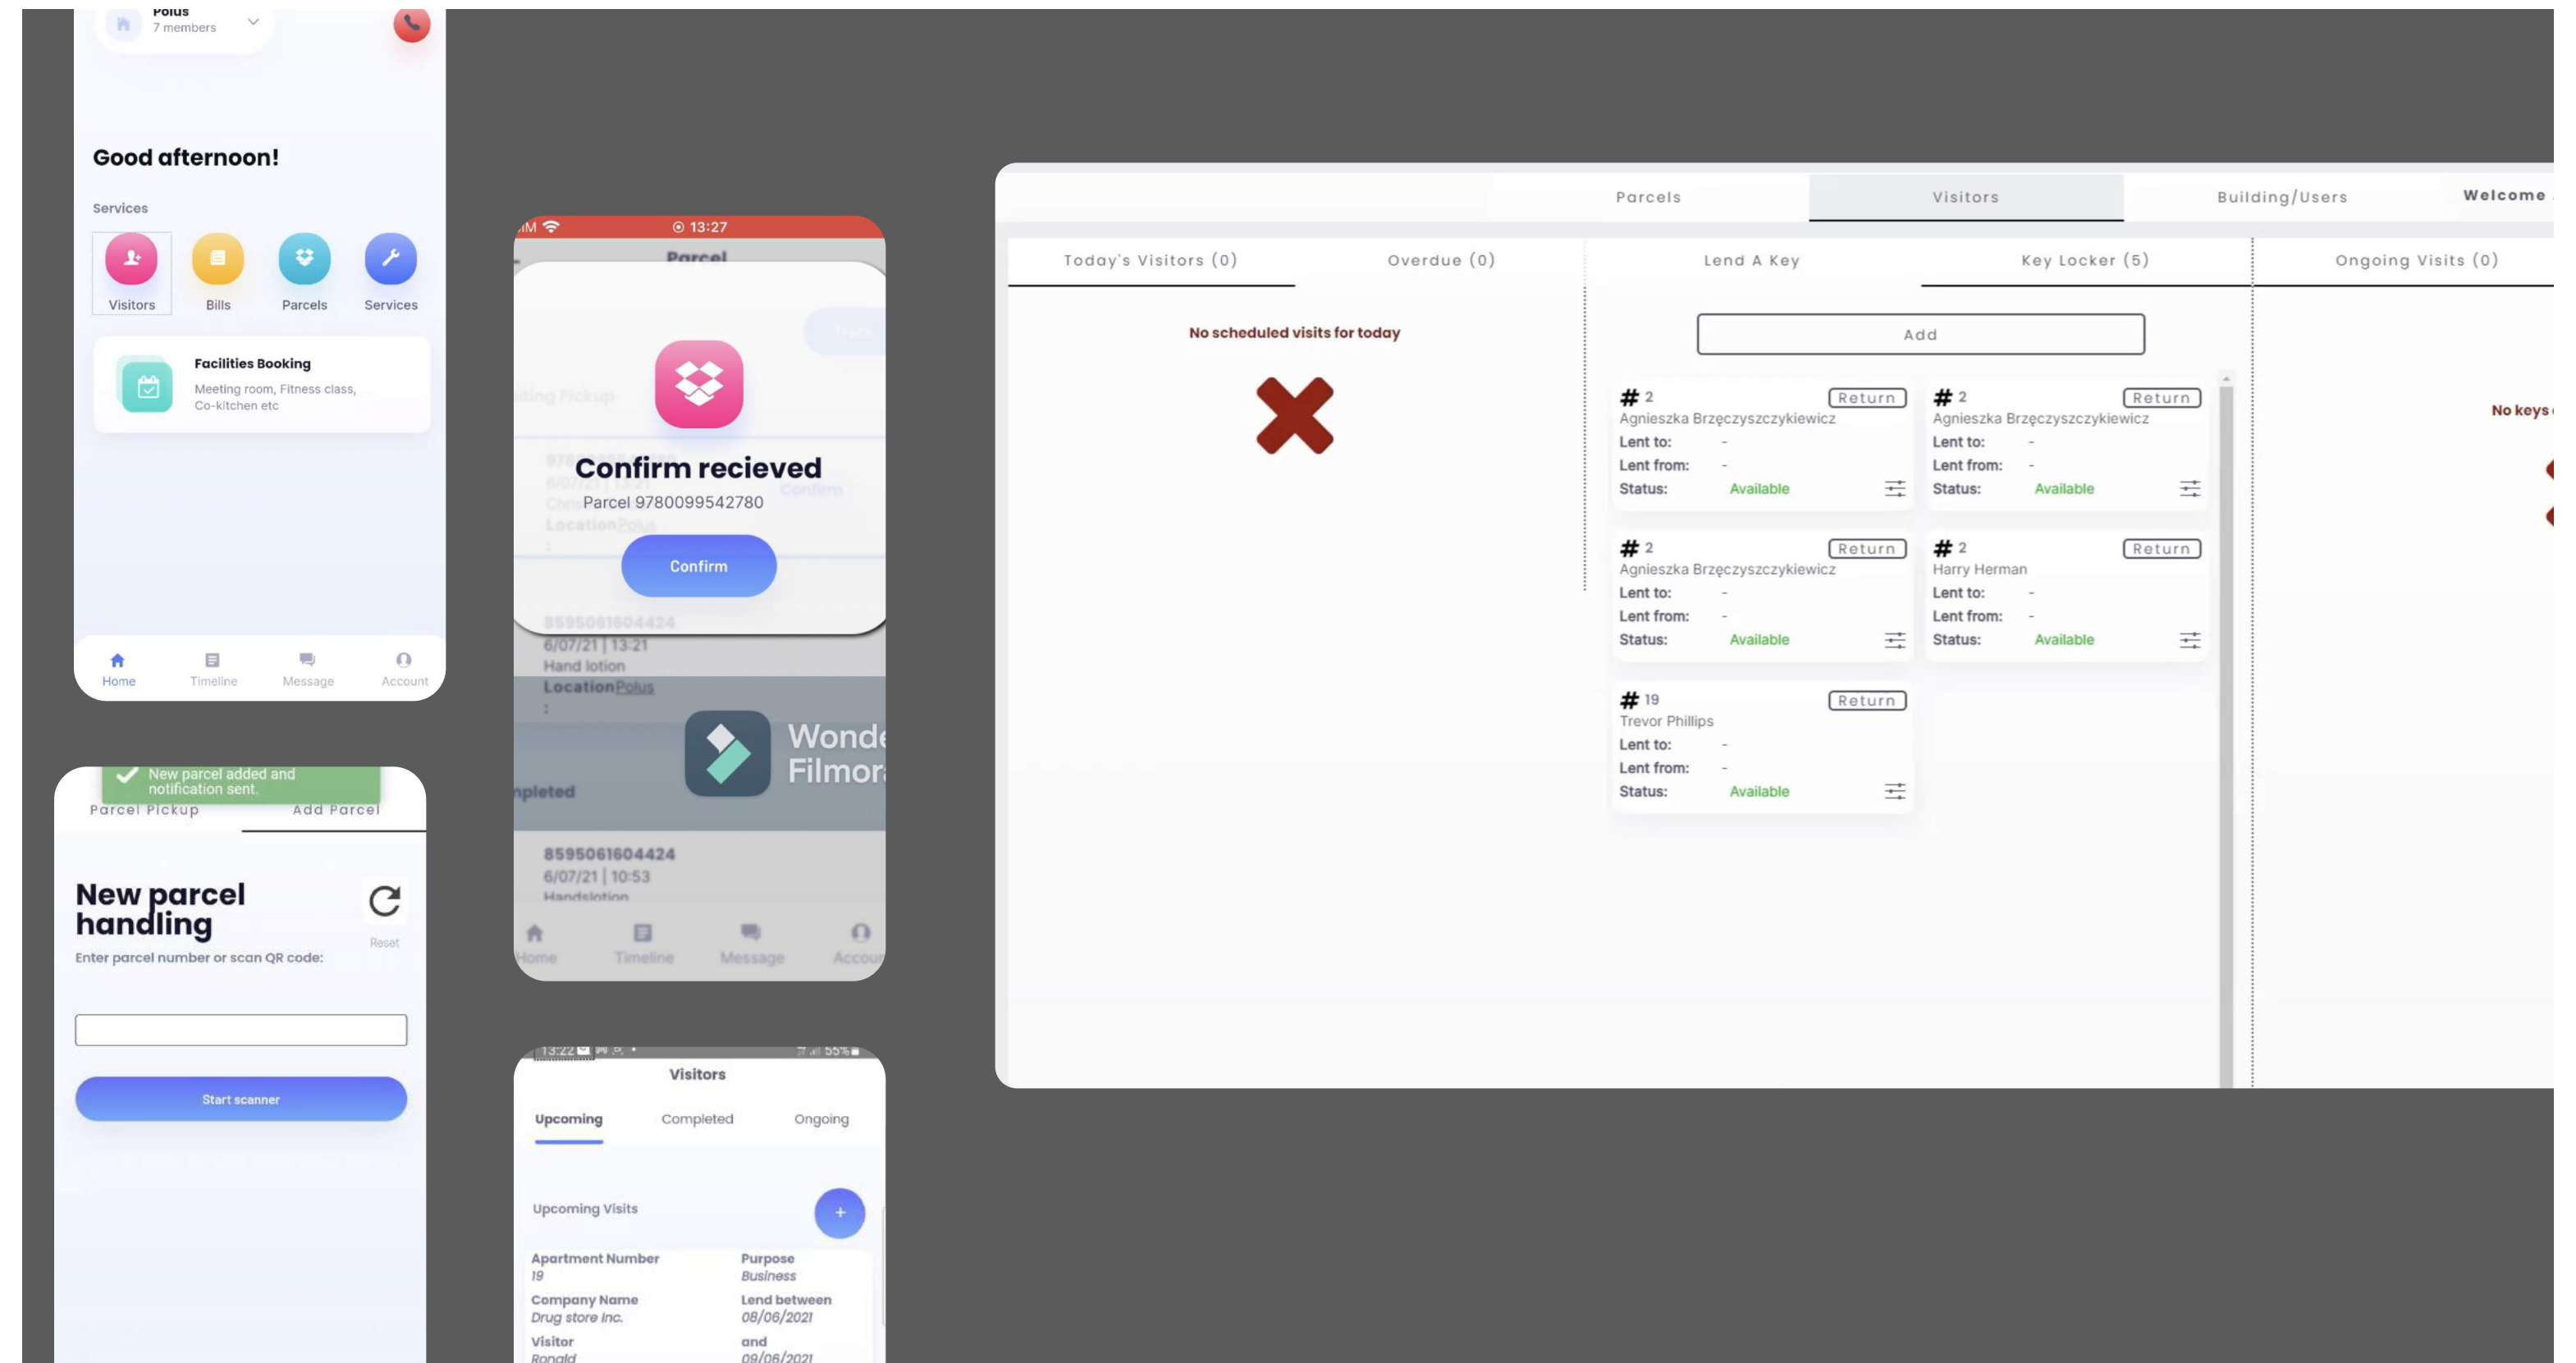

Send us your selected page in form of screenshot (PNG). Give us up to 3 references of your target look and feel.

Best for

- SaaS Digital Products
(e.g. Dashboards, Admin panel, Client Portal, Marketplace, B2B Web/Mobile Apps, Multi-view platforms)

Not a good fit for

- Corporate website, eCommerce, Landing Pages, or other Marketing Pages

design 316.

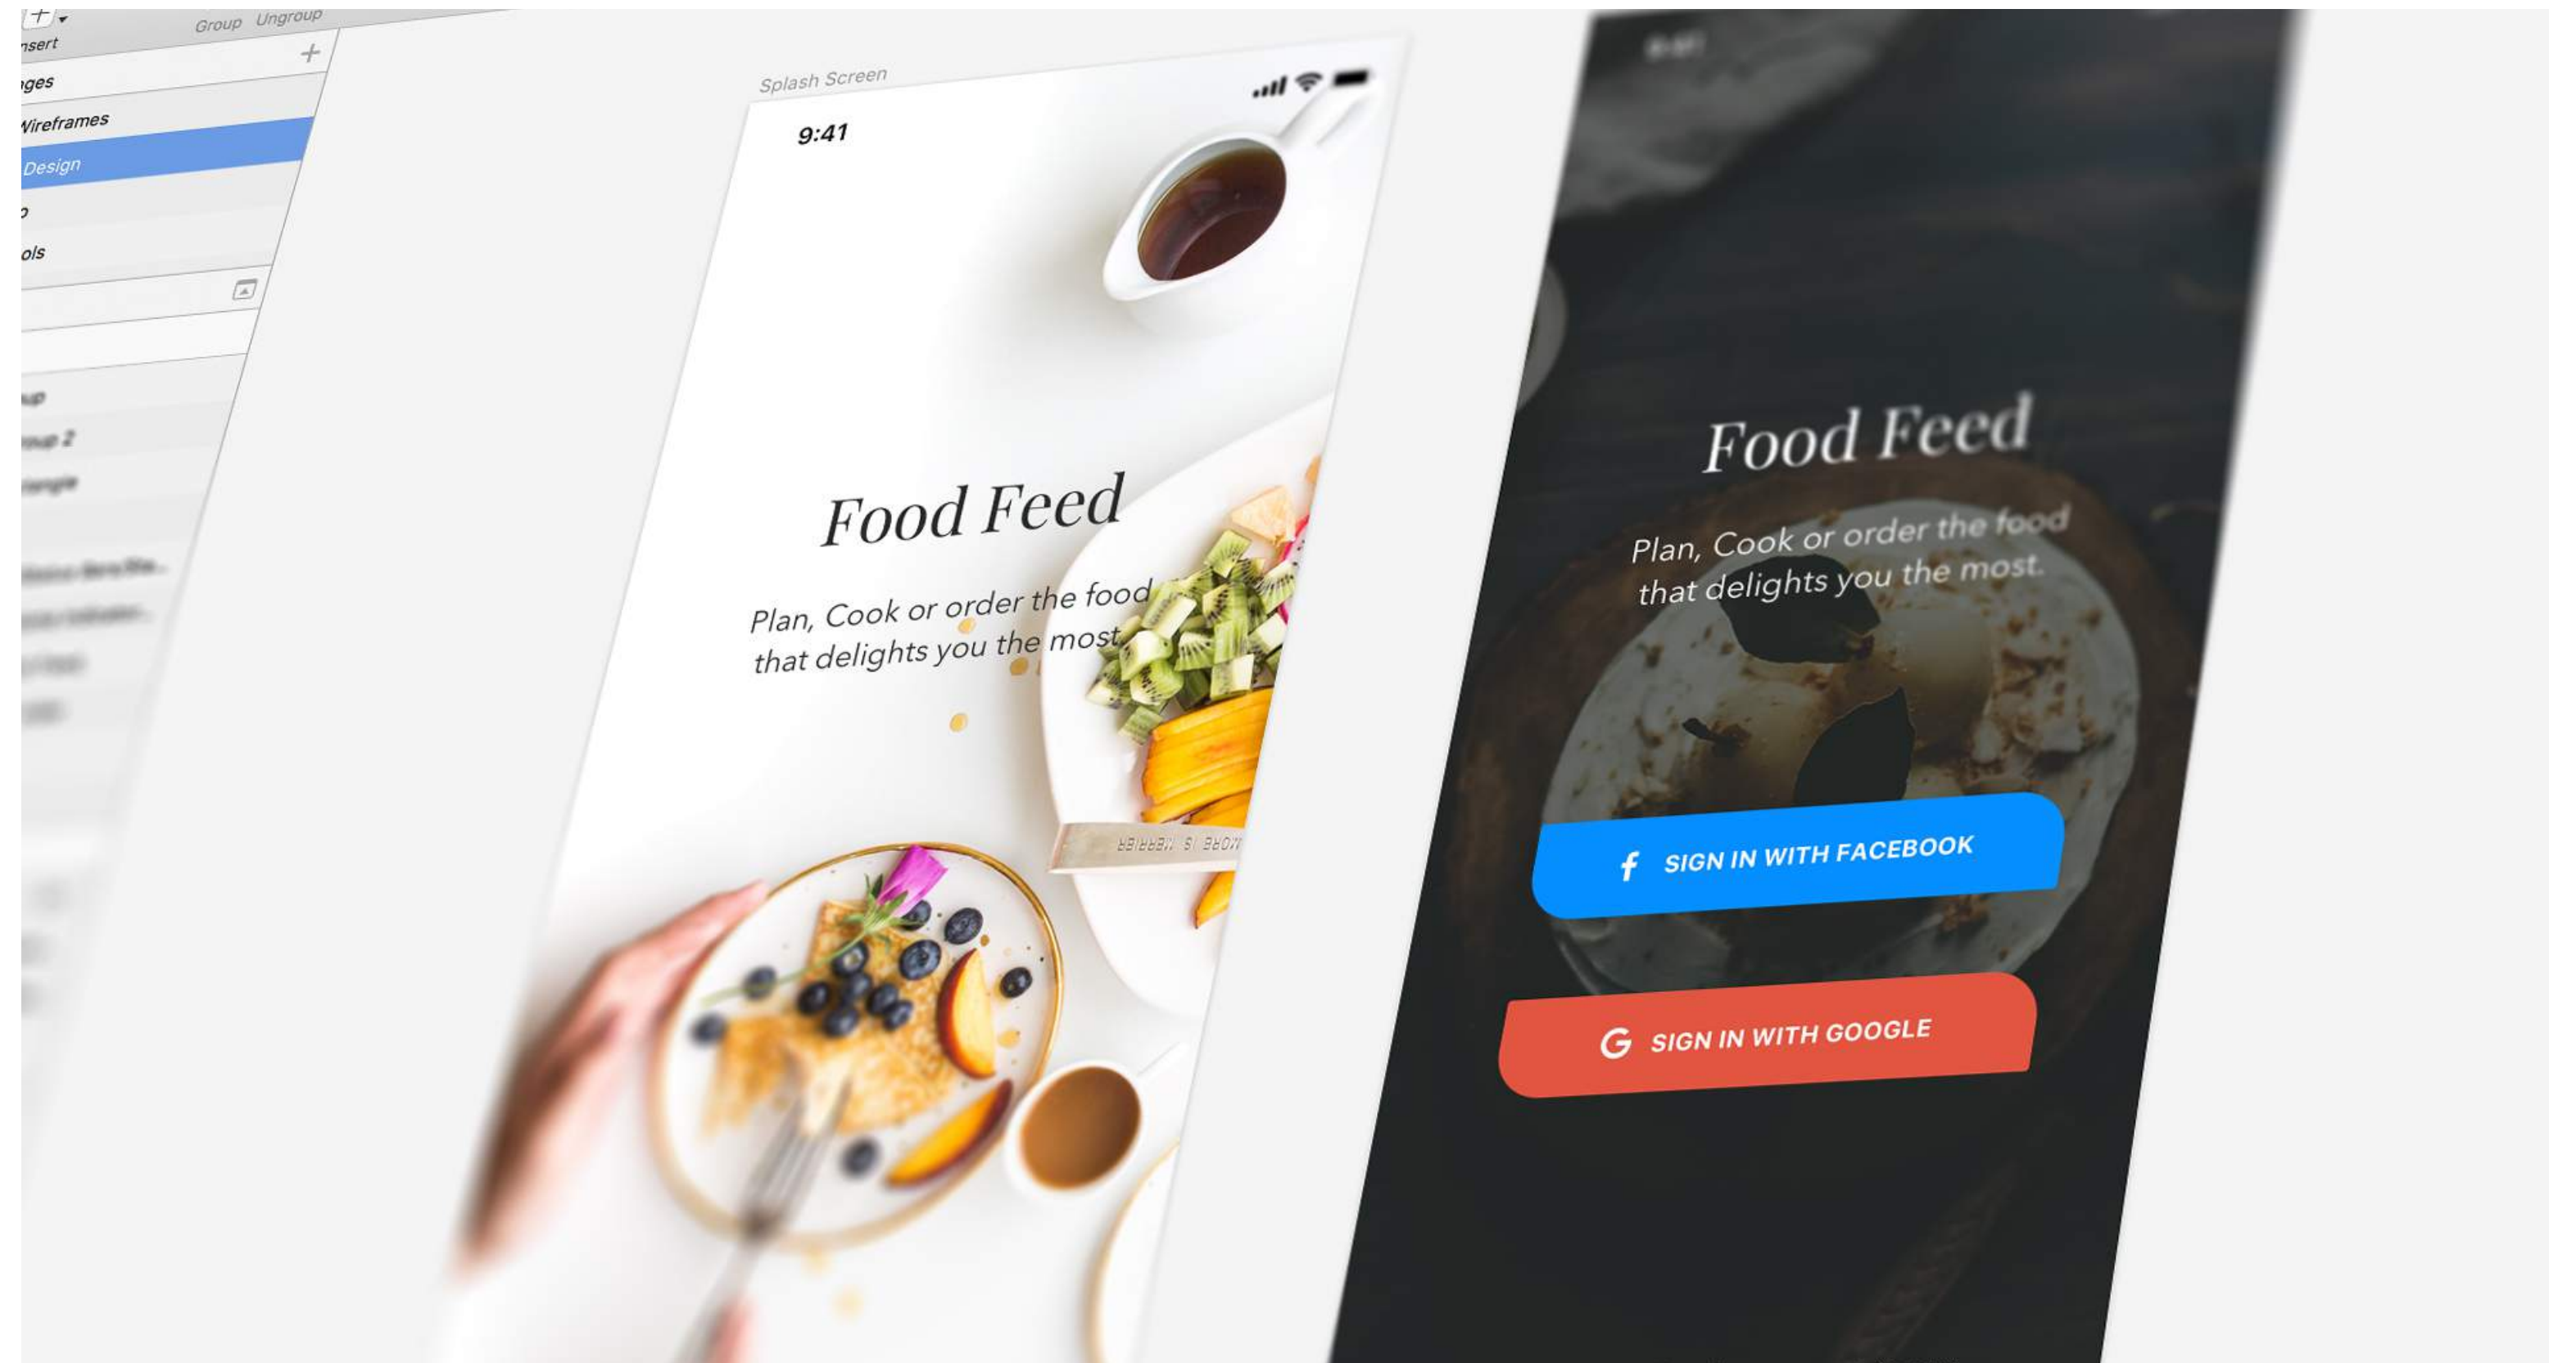

Phase 2

UI Design

Get an updated design in 3-5 Days. You have 2 Rounds of Client Review.

Activities

- UI Design R1 (3-5 Days)
We will send you an updated UI Design for the selected page.
- UI Design R1 Feedback
The client will provide feedback on the updated UI Design submitted in Round 1.
- UI Design R2
We will do the requested changes from Round 1 and submit the revised version for approval.
- UI Design R2 Approval
The Client will approve the final UI Design

design 316.

Phase 3

Delivery

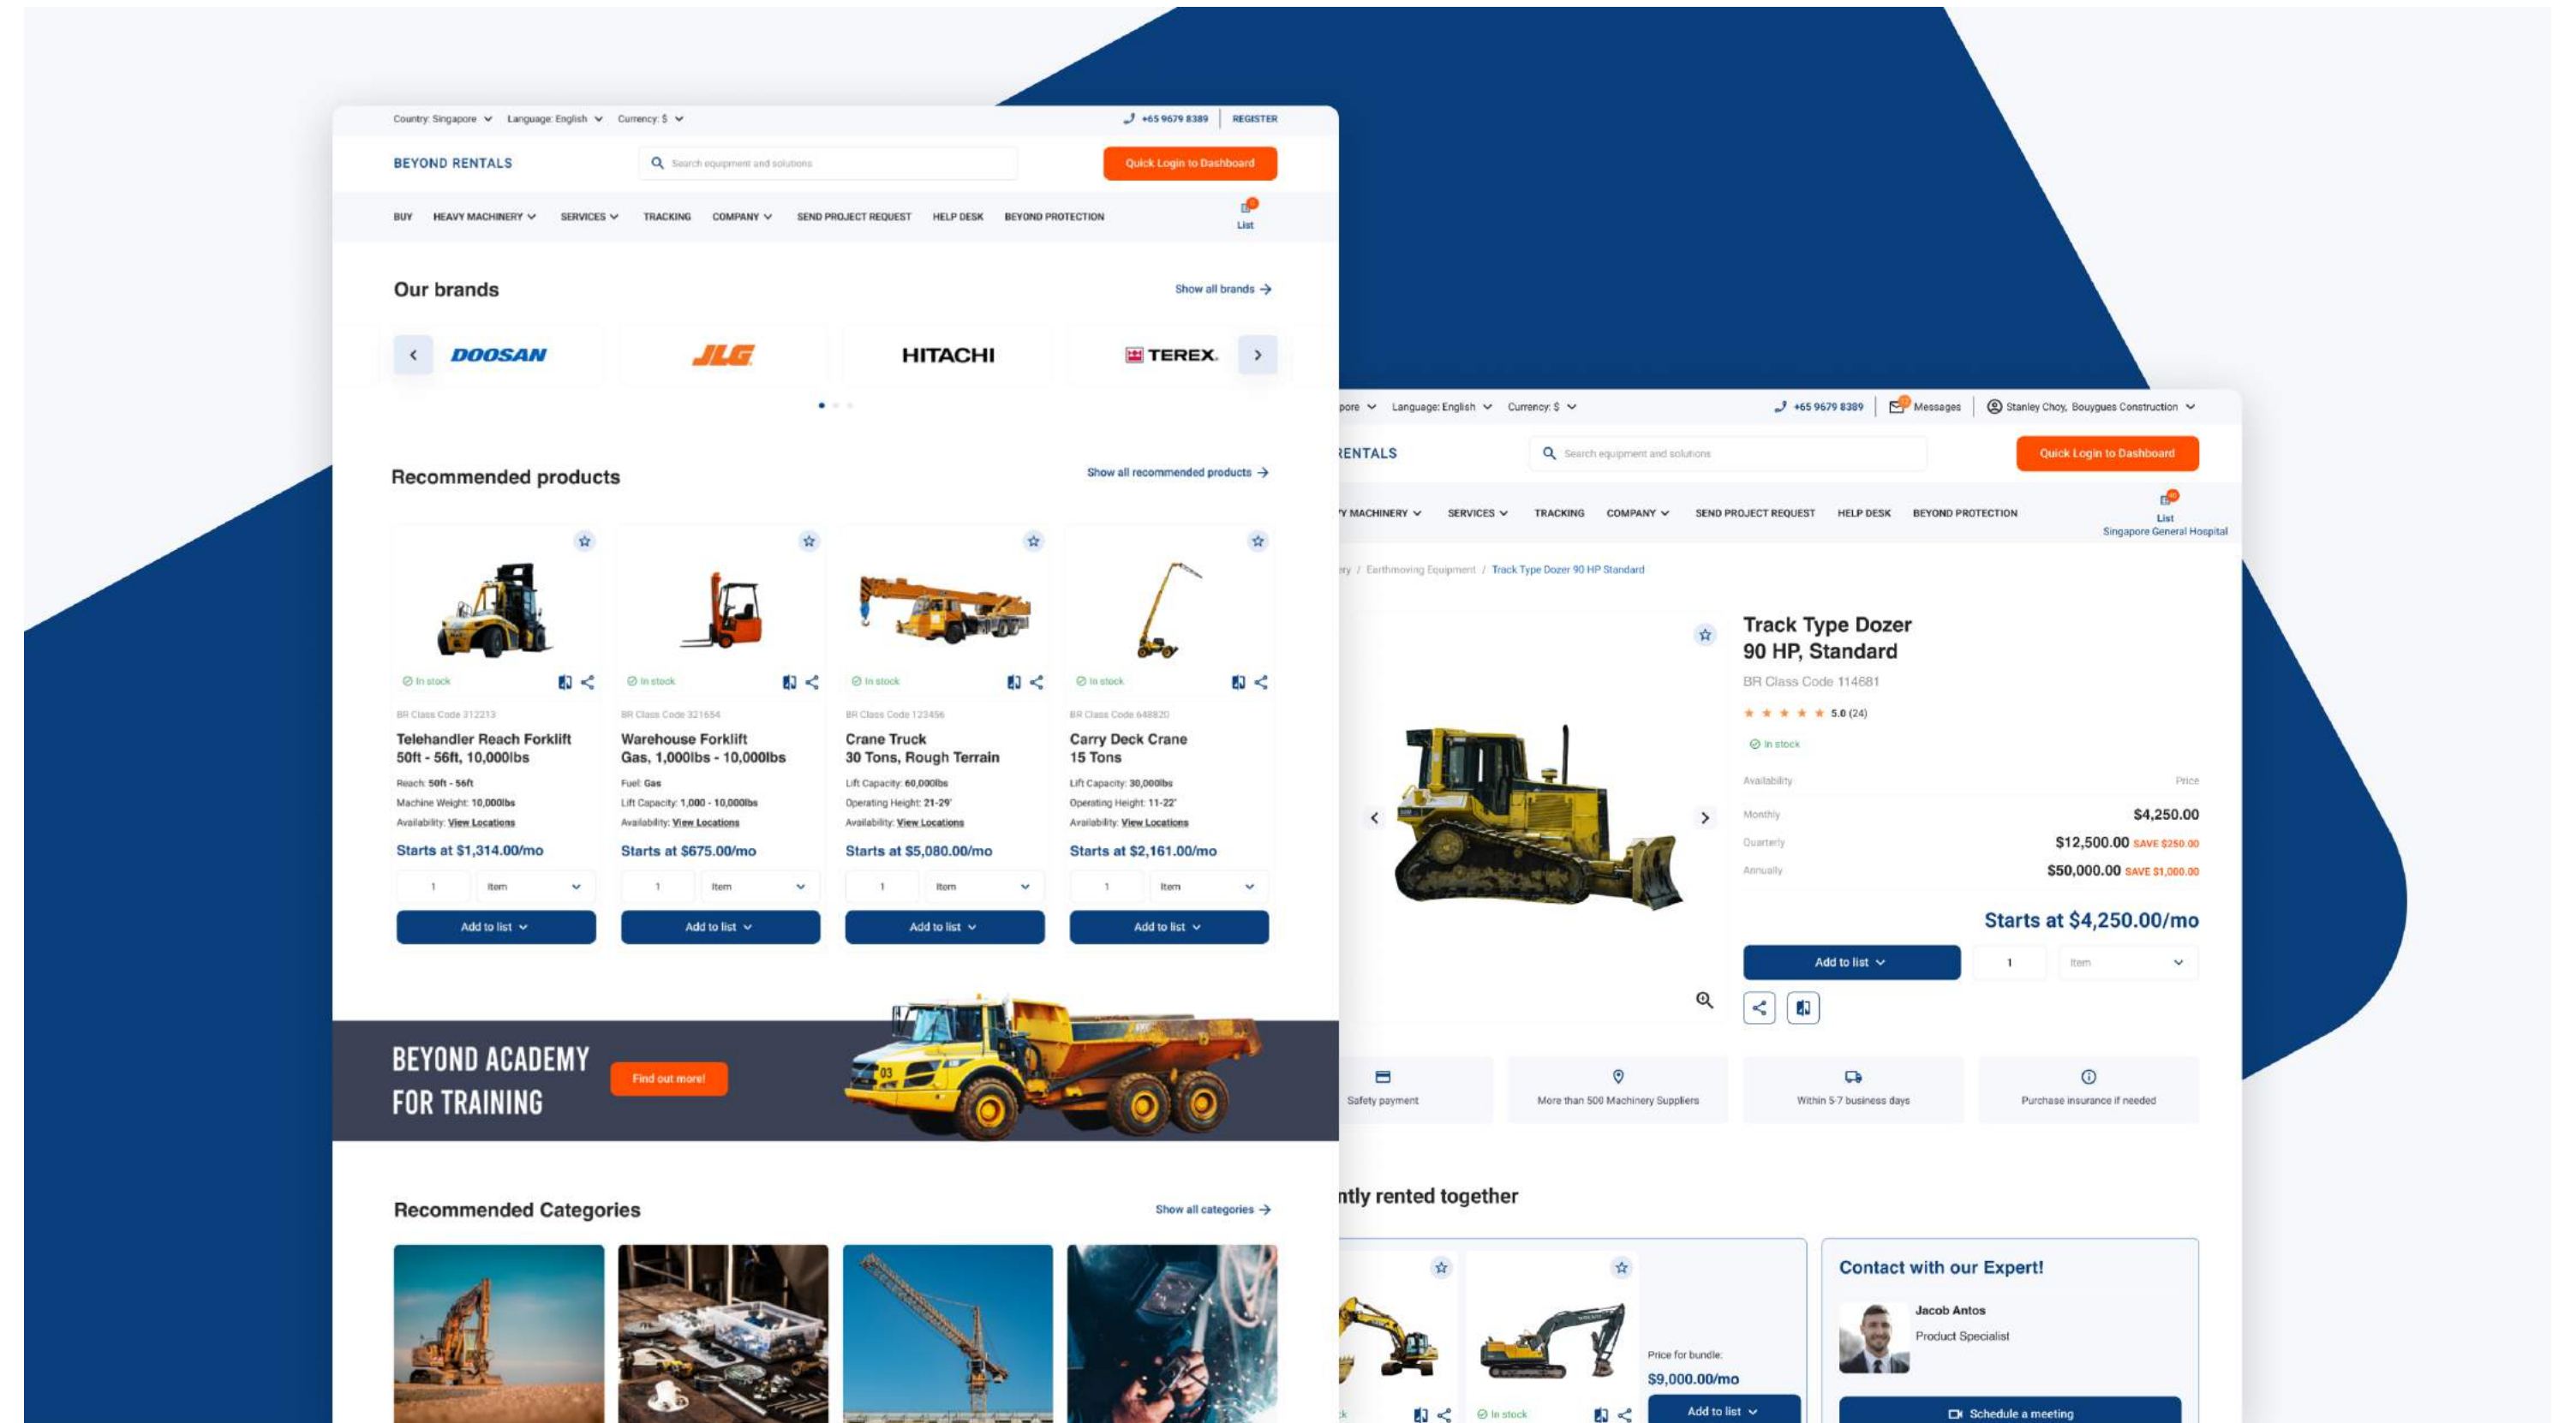

You will receive the final UI design in Figma.

Deliverables

- Final UI Design of your screen
- Figma File of the updated design

Your next options

- Complete Redesign Engagement
- Create Design System that your team can use for continuous improvements

Updated Screen

The screenshot displays the Spaciable Living dashboard for a specific phase. The left sidebar contains navigation options: Dashboard, Developers (selected), Profile, Residents, Administrators, Concierge, Visitors (2), Parcels, Shared Spaces, and Chat (1). The main content area shows the breadcrumb path: Developers > Crest Nicholson > Northern > Edgewater Meadows > Phase 1. A search bar is at the top right. The phase overview includes a 'Back to Edgewater Meadows' link, the title 'Phase 1' with an 'Edit Phase' button, and a 'Customer Experience Contact' section for Hartford Ceshire (023 8062 6280, hartford.c@mail.com). An 'Administrators' list includes John Texeria, Estelle Murray, Ann Hoskinson, and Carolvn Brvant. Summary cards show 'Plots' (5 Active, 2 Called-off, 0 Expired) and 'Residents' (50 Invited, 25 Activated, 50% Activation Rate). Below are tabs for Plots, Documents, Contacts, and Phase Settings. The 'Phase 1 Plots' section features a table with columns for Plots, Postal, Road, Postcode, Spec Template, and Build Status. A dropdown menu is open over the 'Show' filter, listing 'All Plots', 'Plots with outstanding activation', and 'Plots without invites'. The table shows two rows for 'Azalea Building' plots.

Welcome to Metric Intelligence Hub™.

Follow the steps to query SSON's proprietary benchmarking database.

- 1 Select your metric, industry and location of your captive/hybrid SSC (either by region or country).
- 2 A chart will be populated and the median class highlighted.
- 3 The chart represents other captive/hybrid SSCs in your selected industry and location, allowing you to benchmark against your peers.

Note: Results will only be generated when all 3 fields have been selected.

Next Steps

Schedule a 30-min Fit Call

Let's discuss if your project is a good fit to our Redesign Sprint

Agenda

- Discuss your current product and its challenges
- Scope out an initial small redesign engagement

After the Fit Call, we will know if we are fit to work together, and we will give you an exact quotation for the cost of your Redesign Sprint

**design
316.**

Redesign Sprint

THANK YOU
